Free Range Poultry Starter

For promoting growth in Poultry from hatching to 4 weeks of age

Free Range Poultry Starter is a highly palatable grain mix, nutritionally balanced to promote early intakes of chicks. **Free Range Poultry Starter** is suitable for most breeds of chickens.

Manufactured from a selection of cereal grain, legumes, protein meals, molasses, vitamins and minerals, and yeast metabolites.. The grains are crushed finely to allow small birds to easily consume the feed, and for improved animal performance.

Essential oils from plants are included to offer natural protection against E. coli and Cocci, as well as improve palatability, and improve feed conversion efficiency.

Free Range Poultry Starter is designed to promote early intakes and healthy growth in young chicks from hatching until:

- Chicken Pullets reared for laying or breeding - until 6 weeks of age
- Chickens reared for the table - until 4 weeks of age
- Ducks & Geese - until 4 weeks of age
- Turkey poults reared for laying or breeding - until 12 weeks of age
- Turkey poults reared for the table - until 12 weeks of age
- Game birds reared for laying or breeding - until 6 weeks of age
- Game birds reared for the table - until 6 weeks of age

Free Range Poultry Starter contains quality proteins derived from sources such as lupins, peas, canola and other vegetable protein meals. Used in combination, protein meals and legumes can deliver balanced quantities of essential amino acids, such as lysine and methionine, which are generally accepted as the limiting amino acids in production-focused diets. Use of quality protein sources can help promote growth rates when compared to traditional "least-cost" formulations, which may include protein sources, such as DDG.

Free Range Poultry Starter does **NOT** contain animal derived protein meals, or antibiotics.

Free Range Poultry Starter should be offered on an *ad-lib* basis. Always ensure animals have access to clean, fresh water at all times

Calculated Analysis (per Kg)¹

AME Poultry:	11.5 MJ/kg
Crude Protein (CP):	21.5%
Lysine (digestible):	1.20%
Methionine (digestible):	0.60%
Threonine (digestible):	0.82%
Cysteine (digestible):	0.37%
Fat:	3.90%
Starch (typical):	37.0%
Crude Fibre (typical):	3.30%
Calcium:	0.73%
Phosphorus:	0.75%
Sodium:	0.26%
Salt (max added):	0.1% ¹
Medications:	Nil

Free Range Poultry Starter

For promoting growth in Poultry from hatching to 4 weeks of age

Product Features:

Vitamins and minerals

- Vitamin A – an important vitamin to support healthy growth and development, vitamin A can often be limiting on diets based on concentrates, hay and silage.
- Vitamin E – An important vitamin involved in many physiological functions including reproduction, immune function, muscle and nerve function. Vitamin E also acts as antioxidant in conjunction with Selenium.
- Trace minerals including Chromium, Cobalt, Iron, Iodine, Manganese, Selenium, and Zinc.
- Macro minerals including Calcium, Phosphorus, Sodium and Chloride
- Enzymes are included to improve mineral uptake from the diet, resulting in the same performance from lower levels of mineral inclusion.

Balanced Amino Acids

- **Free Range Poultry Starter** contains added Lysine and Threonine to promote early and efficient growth in young chickens.

Gut Health

- **Regano®**, a natural blend of essential oils that act not only as an appetising agent, but can help improve animal performance, and assist in the prevention of diarrhoea caused by Coccidia, E.coli, C. perfringens and Corona/Rota-viruses.
- **Betaine**, while useful as a source of methionine, is also beneficial in alleviating osmotic challenges in the gut and helping to maintain gut integrity.
Diamond V XPC®
- **Diamond V XPC®**, a natural nutritional health product, demonstrated to improve stomach health and development, improve feed intake leading to more efficient animal performance. Diamond V XPC has also been demonstrated to improve immune system function, as well as reduce colonisation of Salmonella in the gut in chickens, leading to a reduction in Salmonella shedding and lower infection rates.

Ingredients

Free Range Poultry Starter is manufactured from a selection of the following ingredients:

- Wheat, Barley, Maize, Lupins, Peas, Canola Meal, Soybean Meal and products derived from these ingredients.
- Limestone, Salt, Dicalcium Phosphate, Mono Dicalcium Phosphate, Sodium Bicarbonate, Betaine Anhydrous, Amino acids, Diamond V XPC, Regano, AGRiliq, Vegetable Oil, Bredol, CPS Monogastric Vitamin & Trace Mineral Premix.
- Ingredients may be altered based on availability.
