Dairy Performa EverProtein

High protein concentrates for mixing with grain

Dairy Performa EverProtein is a high protein concentrates to help meet the nutritional requirements of dairy cattle throughout the lactation when mixed with cereal grains as component of a complete diet.

Dairy Performa EverProtein is manufactured from a range of legumes, protein meals, vitamins, minerals and other ingredients to supply the cow with proteins and minerals that complement the feeds typically available on dairy farms.

When used in conjunction with our complimentary on-farm nutrition and feed budgeting service, **Dairy Performa EverProtein** are an integral component of modern, profitable dairy farming.

On-Farm Nutrition Service & Custom Formulations

Feed costs are the major cost faced by most dairy farms. Understanding and managing these cost effectively, particularly when faced with challenging economic and environmental conditions, is crucial for profitability.

Counterpoint Stockfeeds offer all bulk dairy customers a complimentary on-farm nutrition and feed budgeting service.

Our qualified Consulting Nutritionists are available at any time to discuss the impact of different feeding strategies and feed purchasing decisions on the production and profitability of your farm.

If you have your own Nutritionist we are can also manufacture feeds based on their formulation or specification.

Dairy Performa EverProtein should mixed with cereal grains as a component at an inclusion rate of 25% of the grain mix as a component of a complete diet including pasture and other forage sources, effective fibre, and clean, fresh water.

Calculated Analysis (per Kg)¹

ME Ruminant:	11.0 MJ/kg
Crude Protein (CP):	25.0%
CP Equivalent:	2.75%
Fat (typical):	4.0%
NDF (max):	20.0%
Calcium:	4.00%
Phosphorus:	0.80%
Magnesium:	1.00%
Salt (max added):	2.00% ²
Urea (max added):	1.00% ²

Dairy Performa EverProtein

High protein concentrates for mixing with grain

Product Features:

Vitamins and Minerals

- Vitamin A - an important vitamin to support healthy growth and development, vitamin A can often be limiting on diets based on concentrates, hay and silage.
- Vitamin D - a crucial vitamin involved in calcium homeostasis and immune function.
- Vitamin E - involved in many physiological functions including reproduction, immune function, muscle and nerve function. Vitamin E also acts as antioxidant in conjunction with Selenium.
- Trace minerals including Cobalt, Copper, Iron, Iodine, Manganese, Selenium and Zinc.
- Macro minerals including Calcium, Phosphorus, Magnesium, Sulphur, Potassium, Sodium and Chloride.

Rumen Health

- Rumen buffering is achieved using high levels of **Acid Buf®**, a natural product that buffers the rumen against pH changes longer than traditional buffers such as sodium bicarbonate or sodium bentonite. Acid Buf® also supplies calcium and magnesium, reducing the amounts of macro minerals required to meet the desired mineral targets.

Additives

- Additives, such as monensin, can be added to this product on request.

Ingredients

***Dairy Performa EverProtein* is manufactured from a selection of the following ingredients:**

- Wheat, Barley, Maize, Oats, Lupins, Peas, Beans, Canola Meal, Soybean Meal, Almond Hulls, Grape Meal and products derived from these ingredients.
