CPS Backyard Layer

A vegetarian feed to support the health of backyard laying hens

CPS Backyard Layer is a nutritionally balanced pellet to promote the health of domestic laying hens.

Manufactured from a selection of cereal grain, legumes, protein meals, molasses, vitamins and minerals.

CPS Backyard Layer is designed for feeding to laying hens from the point of lay as a supplement where access to other feeds are available.

If feed is limiting, or if higher levels of egg production is desired we recommend **CPS Free Range Layer**, or if feeding to meat breeds to promote egg production we recommend **CPS Backyard Poultry Breeder**.

CPS Backyard Layer contains quality proteins derived from sources such as lupins, peas, canola and other vegetable protein meals. Used in combination, protein meals and legumes can deliver balanced quantities of essential amino acids, such as lysine and methionine, which are generally accepted as the limiting amino acids in production-focused diets.

CPS Backyard Layer does **NOT** contain animal derived protein meals, or antibiotics.

CPS Backyard Layer should be offered on an *ad-lib* basis to hens and pullet from the point of lay in conjunction with other feeds typically available to hens fed in domestic environments. Always ensure animals have access to clean, fresh water at all times.

Intakes will vary depending on other feeds offered, but will typically be at a level of 130 grams/bird/day.

Calculated Analysis (per Kg)¹

AME Poultry:	10.5 MJ/kg
Crude Protein (CP):	13.0%
Lysine:	0.73%
Methionine:	0.35%
Threonine:	0.50%
Fat:	2.30%
Starch (typical):	40.0%
Crude Fibre (typical):	4.00%
Calcium:	4.00%
Phosphorus:	0.38%
Sodium:	0.18%
Salt (max added):	0.30% ¹
Medications:	Nil

Feeding Guidelines

Offer on an ad-lib basis to laying hens. To encourage intakes, replace uneaten feed daily and position close to water. Ensure unrestricted access to clean, fresh water.

Counterpoint Stockfeeds is a locally owned, progressive stockfeed manufacturer located in the Murray River town of Barham, NSW. We manufacture quality pellets and grain mixes for the dairy, beef, sheep, pig, and poultry industries.

Our range of products are formulated by our qualified and experienced Nutritionists to cater for your individual needs.

All our sites are accredited under FeedSafe® - the quality assurance program of the SFMCA. This ensures the products you receive are of the highest quality and standard.

CPS Backyard Layer

A vegetarian feed to support the health of backyard laying hens

Product Features:

Vitamins and Minerals

- Vitamin A – an important vitamin to support healthy growth and development.
- Vitamin D – required for proper absorption and utilisation of calcium and phosphorous, which are required for normal growth, bone development and eggshell formation.
- Vitamin E – a powerful antioxidant and important for normal neurological functions.
- B-Group vitamins are involved in many metabolic functions including energy metabolism.
- Trace minerals including Cobalt, Iron, Iodine, Manganese, Selenium and Zinc.
- Macro minerals including Calcium, Phosphorus, Sodium and Chloride.

Organic Minerals

- Supplementing animals with organic minerals has long been recognised to improve animal health and performance. **CPS Backyard Layer** contains:
 - Organic Iron - the trace mineral iron is required by animals for numerous functions, including oxygen transport, immunity and muscle development. In addition, when an animal has the proper balance of trace minerals it is better able to cope with the challenging effects of stress.
 - Organic Zinc - the trace mineral zinc is required by animals for numerous functions, including immunity, reproduction, skin and hoof integrity, muscle development and eggshell quality. In addition, when an animal has the proper balance of trace minerals it is better able to cope with the challenging effects of stress.

Balanced Amino Acids

- **CPS Backyard Layer** contains added Lysine, Methionine and Threonine to promote production in poultry. Balanced amino acids are more important to the hen than total protein in the diet..

Ingredients

CPS Backyard Layer is manufactured from a selection of the following ingredients:

- Wheat, Barley, Maize, Lupins, Peas, Canola Meal and products derived from these ingredients. Limestone, Salt, Dicalcium Phosphate, Mono Dicalcium Phosphate, Sodium Bicarbonate, Natural Betaine, amino acids, Molasses, Vegetable Oil, Bredol, CPS Monogastric Vitamin, Enzymes & Trace Mineral Premix.
- Ingredients may be altered based on availability.

Packaging and Availability

CPS Backyard Layer is available as a Pellet in:

- **Bulk** – minimum order of 4000kg
- **Bulka Bags** – 1000kg
- **20kg Bags** – through selected retail outlets.

Counterpoint Stockfeeds understands every customer has unique requirements and goals. We are specialists in custom feeding programs and happy to customise our feeds to meet your individual needs.

Counterpoint Stockfeeds (CPS) believes the information contained in this document to be true and correct for the applications as described. Updates may be made to product specifications, usage guidelines, and/or ingredients used in these products.

Customers must seek advice from CPS if there is any doubt regarding the usage of products described. Subject to those terms implied by statute which cannot be excluded restricted or modified, no warranty of accuracy or reliability is given and no responsibility to the customer or any other person is accepted for errors or omissions howsoever arising, including matters arising through negligence by CPS, it's Directors, employees or agents.
