Hay Saver Fibre Pellet

For supplementary feeding to sheep and cattle to extend forage sources

Hay Saver Fibre Pellet are pellets formulated for feeding to sheep as a fibre and forage extender.

Manufactured from a selection of high fibre, low starch ingredients this product is ideal for use as a partial alternative to hay, or as a means of extending the available forage sources, such as pasture or hay, reducing feed wastage and saving you time and money.

Hay Saver Fibre Pellet is:

- Easier to handle, store and feed than forage sources;
- Safer than feeding grain;
- Contains consistent nutrient level which would otherwise change between forage batches.

Hay Saver Fibre Pellet is available in two protein levels:

Hay Saver Fibre Pellet - 8.5% Crude Protein

Hay Saver Fibre Plus Pellet - 14% Crude Protein

Hay Saver Fibre Pellet are not intended as a complete feed and must be offered in a self feeder in conjunction with hay and straw.

For optimum performance, offer **Hay Saver Fibre Pellet** on an ad-lib basis (after an initial introductory period) in conjunction with a suitable forages and a source of effective fibre (eg. cereal straw) and clean, fresh water.

This product does not contain a rumen buffer, trace mineral or vitamin premix, or protection against urinary calculi.

Hay Saver Fibre Pellet is only suitable to feed to Ruminants as it may contain some non-protein nitrogen sources.

Hay Saver Fibre Pellet is suitable for feeding to sheep and cattle.

Feeding rates for **Hay Saver Fibre Pellet** will vary depending on the availability of other feeds, animal condition & class and environmental factors. Please speak with a **Counterpoint Stockfeeds Nutritionist** for additional information.

Calculated Analysis (per Kg)¹

ME Ruminant:	10.0 MJ/kg
Crude Protein (CP):	8.5% and 14.0%
CP Equivalent (max):	up to 2.00%
Fat:	2.5%
Starch (typical):	20.0%
NDF (max):	23.0%
Calcium:	0.80%
Phosphorus:	0.30%
Magnesium:	0.20%
Salt (max added):	1.00% ²
Urea (max added):	up to 0.50% ²
Lasalocid sodium	Nil

¹ Dry Matter Basis at 85% Dry Matter

² As-Fed Basis

Feeding Guidelines

Offer on an ad-lib basis, or trail fed at the desired feeding rate following an appropriate introductory period.

Can be offered as a supplement to forages or as the main diet in conjunction with a suitable source of effective fibre

To encourage intakes, replace uneaten feed daily.

Ensure unrestricted access to clean, fresh water.

Counterpoint Stockfeeds is a locally owned, progressive stockfeed manufacturer located in the Murray River town of Barham, NSW. We manufacture quality pellets and grain mixes for the dairy, beef, sheep, pig, and poultry industries.

Our range of products are formulated by our qualified and experienced Nutritionists to cater for your individual needs.

All our sites are accredited under FeedSafe® - the quality assurance program of the SFMCA. This ensures the products you receive are of the highest quality and standard.
